

DARKIQ FOR MSSPs

MONITOR, PRE-EMPT, AND
PREVENT COSTLY SECURITY
INCIDENTS AGAINST YOUR
CUSTOMERS.

SPOT CYBER ATTACKS. EARLIER.

DarkIQ is your secret weapon, continuously monitoring the dark web for hidden cybercriminal activity—so you don't have to. Think of us like your automated analyst. We detect, categorize, and alert you to imminent threats so you can take action against cybercriminals before they strike and prove your ROI from day one.

ILLUMINATE DEEP AND DARK WEB THREATS. PREVENT ATTACKS.

See what adversaries are planning

ENHANCE YOUR SECURITY STACK

With our intuitive, no-install platform, or integrate our API threat intel into your SIEM.

AUTOMATED REPORTING

Create one-click reports to prove your team's impact and demonstrate ROI.

PROVEN

Used by leading security professionals to identify and prevent imminent threats.

MEET GROWING DEMAND

Add dark web monitoring, investigation, and reporting to your services.

MULTI-TENANT MONITORING

Easily create and manage multiple customer profiles from a single dashboard

SUPERCHARGE EFFICIENCY

Cut through the noise with context-rich dark web alerts, so your team can focus on imminent threats to your customers' cyber security

THE DARK WEB MONITORING PLATFORM OF CHOICE FOR MSSPs. MSSPs AROUND THE WORLD RELY ON DARKIQ TO IDENTIFY THE EARLIEST INDICATORS OF AN ATTACK TO DEFEND THEIR CUSTOMERS FROM DARK WEB THREATS WITH ACTIONABLE ALERTS.

BUILT FOR MSSPs

Continuously and automatically monitor your customers' external risk profile under a single account. Best of all, there's no installation required. With DarkIQ, you can start every customer engagement with a snapshot of where they are exposed on the dark web, delivered in minutes.

“

WE'RE THRILLED TO PARTNER WITH SEARCHLIGHT TO BRING DARK WEB INTELLIGENCE TO OUR CUSTOMERS, HELPING THEM MITIGATE CYBER RISKS EARLIER.

MODELED THE WAY YOU DO BUSINESS

STRATEGIC LICENSES

FOR MANAGED SECURITY (MOST POPULAR)

Add dark web intelligence to your managed security/SOC. Shift left in the cyber kill chain to identify threats before they impact your customers.

➤ FLEXIBLE PRICING

Add dark web monitoring to your offering at your own pace with our pay-monthly, pay-by-license, and pay-as-you-sell model.

➤ HOW DOES IT WORK

Designed for year-round managed support for large private and public sector customers.

➤ BENEFITS

Scalable // Easily monitor your entire customers base and add licenses as you need them.

Protect your margins // Easily add licenses once you've converted a customer, not before.

Value added opportunities // Provide customers with DarkIQ or manage their profile as a VA.

TACTICAL LICENSES

FOR ONE-OFF ENGAGEMENTS

Inform pen-testing and security audits by helping customers understand their dark web exposure.

➤ FLEXIBLE PRICING

Buy floating DarkIQ credits to create temporary company profiles, which you can reactivate at any time.

➤ HOW DOES IT WORK

Our 30-day tactical licenses are designed for one-off or quarterly customer engagements.

➤ BENEFITS

Flexible // Create 30-day engagements for quick exposure and compliance health checks.

Simple ROI tools // Create professional branded reports in one-click reports.

Upsell to managed security // Grow your revenue with quarterly 30-day engagements or easily convert customers to strategic licenses.
