SUSPICIOUS DARK WEB TRAFFIC
🕐 13th June 2023   ⚠ High Priority   ▢ Exploit
We found dark web traffic to and from your network.

SPOT SUSPICIOUS DARK WEB TRAFFIC TO YOUR NETWORKS

Monitor dark web traffic to and from your network to spot reconnaissance and insider threats with Searchlight Cyber's proprietary technology.

ENHANCE YOUR EXISTING CYBERSECURITY DEFENSES

Use dark web intelligence to triage your current security alerts to isolate the most pressing threats, expanding your defensive radar without exhausting your manpower.

KNOW CRITICAL THREAT INTELLIGENCE FIRST

Empower your cybersecurity team to safely investigate live dark web sites, accessing previously unobtainable intelligence without risking your infrastructure by directly engaging with the live sites.

DEFEND YOUR CRITICAL INFRASTRUCTURE

BE THE FIRST TO KNOW WHEN CYBERCRIMINALS ARE ACTIVELY TARGETING YOUR COMPANY, INFRASTRUCTURE, AND SUPPLY CHAIN ON THE DEEP AND DARK WEB.

HOW IT WORKS

TWO PLATFORMS, ONE GOAL: EARLIER THREAT DETECTION.

DARKIQ DARK WEB MONITORING

DarkIQ scans your domains, IPs, and cloud buckets against 8 million dark web records, while continuously monitoring the dark web and alerting you to imminent threats.

MONITOR CLOSED SOURCES
Receive alerts about threats to your organization and its supply chain.

ENRICH YOUR THREAT INTEL
With our no-install platform or integrate our API into your SIEM.

TAKE ACTION AND REPORT
Focus on imminent threats and create one-click reports to prove your team's impact.

CERBERUS DARK WEB INVESTIGATION

Cerberus collates more than 15 years of dark web data into meaningful intelligence to help your cybersecurity team combat threats safely and easily.

INVESTIGATE HIDDEN THREATS
Identify threat actors and groups that are targeting companies in your industry.

RANSOMWARE INTELLIGENCE
Access continuously updated intel on the latest tactics, known gang members, and victims.

DARK WEB VIRTUAL MACHINE
Explore Tor and I2P onions knowing your identity and network are protected.

TRUSTED BY THE WORLD'S MOST FORWARD-THINKING ENTERPRISES AND CYBER INVESTIGATION TEAMS
